
Begin with Business.

A person in a dark winter coat and a light-colored beanie stands with arms outstretched wide, facing away from the camera. They are positioned in front of a large, calm lake. In the background, there are majestic, snow-capped mountains under a clear blue sky. The overall atmosphere is one of freedom and success.

BENTLEY UNIVERSITY

It All Starts Here.

The modern business world is about more than just the bottom line. Businesses today are creating sustainable energy, developing life-saving drugs and inventing new technologies that change the way we live. So no matter where you want to go, starting with Bentley's distinctive blend of business and the arts and sciences will put you on a proven path to success.

At Bentley, you'll look at the world through a broader lens that embraces business and the arts and sciences, technological mastery and cultural literacy, practical expertise and the ability to effectively communicate with others. You'll see how looking after people and our planet should matter just as much as making a profit. You'll become a force for doing the right thing and making the world a better place.

Two Schools of Thought. One Bentley.

At Bentley, we know a modern education has to prepare you for today's complex world. So we've designed the Bentley experience to give you more: Business plus the arts and sciences. Classroom learning plus real-world experience. World-class technology plus global perspective.

Here, you'll take risks, confront your blind spots, challenge yourself, and discover a better, more complete you. You'll graduate knowing everything you've studied has a place and a purpose in today's fast-moving global marketplace. You'll not only be ready to succeed in your adult life, but prepared to thrive in everything you do.

Beyond the Books

PUT YOUR EDUCATION TO WORK

A world-class education cannot be confined to the classroom. At Bentley, students are constantly pushed to apply and refine their education through ongoing engagement with the outside world.

Nearly 70 percent of students complete at least two internships during their time at Bentley; many lead to full-time positions as a direct result (just one of the reasons *The Princeton Review* ranked our internships program No. 4 in the nation). Bentley students also enjoy access to executives from top organizations through our Corporate Partnerships program. They work with senior business leaders, applying classroom lessons to real business challenges, and finding out what it really takes to get things done.

Half of Bentley students take advantage of the chance to study abroad, choosing from more than 80 programs in more than 25 different countries. These experiences are packed with opportunities for intellectual challenge, personal development, language acquisition and career growth.

Each year, more than 1,000 Bentley students take part in projects that serve the community, putting their business skills to use helping those in need, while developing valuable civic skills and practical business know-how.

Tomorrow's Technology Today

LEARN ON THE CUTTING EDGE

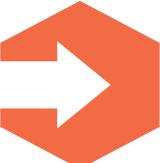

At Bentley, technology is a part of everything we do. So no matter what your course of study, you'll be working with leading-edge equipment, in facilities that are the envy of many corporations.

Our groundbreaking Trading Room brings Wall Street to Waltham, putting the global financial markets at your fingertips. Our Center for Marketing Technology is where future communications experts come to get a handle on the latest industry marketing software and research tools. And our Computer Information

Systems Sandbox gives you a collaborative space for exploring and mastering everything from the creation of mobile apps to video gaming.

This approach pays off: Our graduates enter the job market with an advantage over their competition, having conquered the same software and technology that's being used by top business professionals around the world. In fact, many find they're better versed in today's technology than many of their new colleagues.

BECOME THE NEXT BIG THING

Our nationally recognized career-planning effort incorporates your academic, occupational and extracurricular interests into one cohesive four-year plan for your professional development.

The Pulsifer Career Development Center is ranked No. 3 in the nation by *The Princeton Review* and from the day you start at Bentley, the staff is focused on how to transition your coursework into a career. It all begins in your first year on campus with the innovative Career Development Seminar (CDI 101), where you'll take an intensive look at your skills,

interests and abilities. Through research, networking and informational interviews, you'll gain a deeper understanding of career paths available to you. As your plans are confirmed, you'll attend career fairs and gain experience through internships. By the time senior year comes around, you'll start targeting specific organizations that best match your talents and passions.

Regardless of your aspirations after graduation, you will have all of the skills you need for lifelong professional success.
